

1/4lb (1/2 cup) regular fat burger  
2 3/4 cup cooked white rice enriched  
2 eggs (large whole raw)  
1 1/4 cup cooked carrots  
2 tblesp cold pressed safflower corn or soy oil  
2 tsp animal essentials calcium or slightly rounded tsp of eggshell powder (dried and powdered)  
1/8 tsp iodized salt  
2tblersp parsley (natural diuretic) optional  
1/2-1 clove garlic minced  
20 milligram-level of a complete B complex  
1,000 milgr vitamin C 1/4 tsp sodium ascorbate

mix together and serve raw if the dog will eat it  
otherwise mix all together bake about 20 minutes  
wait till it cools then add vitamins  
occasionally substitute 1-3 tsp of liver for part of the meat  
fresh water at all times dfiltered or bottled

recipe provides 17% good quality protein, 25% fat, and 55 % carbs  
lower in phosphorous but plenty of calcium

this recipe will feed a 40lb dog for one day or  
triple the recipe to feed a 60lb dog for 3 days

if your dog isn't eating well force feed vitamins separately using these daily levels:  
toy or small dogs 10 miligrms B complex and 250 milligrams vitamin C;  
mid size dogs- use what is indicated in recipe;  
large or giant breed- 50miligrms B complex and 2,000 milligrmas vitamin C

if your dog is eating well but losing weight increase the meat and fat in the recipe to compensate.
